

CUSTOM ACCESS HATCH

SPECIAL FEATURES

- Double insulated top.
- Up to 90° access through top.
- Gas struts for ease of opening.
- Base available to suit tile, decking and corrugated iron roof.
- Excellent durability.

Custom Skylights all metal Access Hatch has internal locking for complete security with a strong toggle catch. It is ideal for commercial and domestic applications, where access to the roof is required. They come in a variety of sizes.

BASE – Base can be made in zinc, galvanised iron or in any of the Colour Bond colours.

GAS STRUTS – A gas strut is a controlled force for the extension and compression of the lid whilst damping the opening and closing motion.

INSTALLATION – Installation can be done by our own installers or the unit can be supplied only.

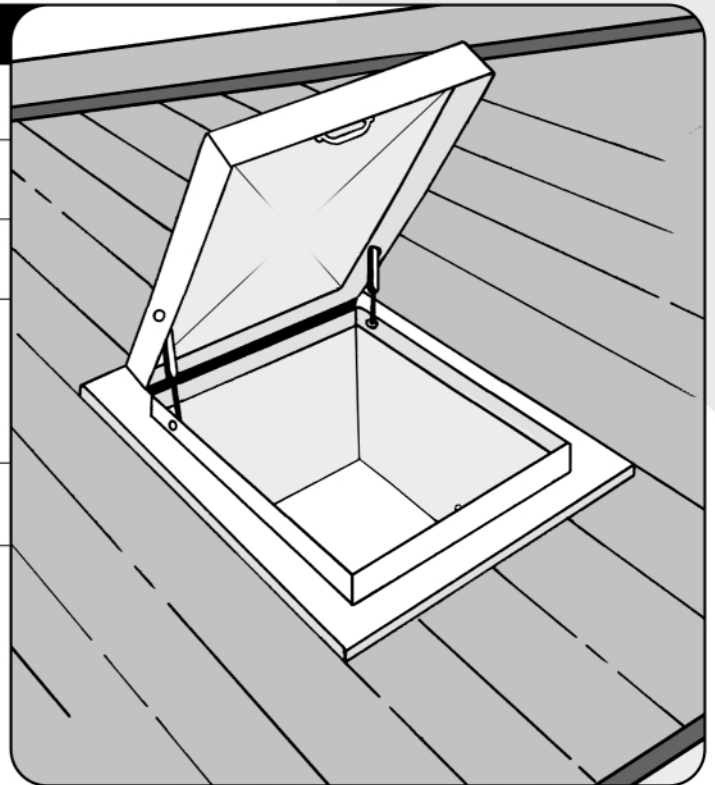

HINGE – Full 50mm piano hinge for extra strength.

LID – All our lids are insulated to limit heat and rain drumming.

10 Year Guarantee
