Exhaust Fan is a forced air ventilation system designed for the full range of Custom Domes. The **Exhaust Fan** accessory can also be installed in existing Custom Domes. The light well forms the interior to exterior air path. **Exhaust Fan** removes steam, heat, smells and a smokey atmosphere efficiently.

It creates a comfortable environment in rooms requiring additional air movement and is particularly suitable for kitchens, bathrooms, laundries, toilets, offices, restaurants, schools etc.

BASE – Base can be made in zinc, galvanised iron or in any of the Colour Bond colours.

DOMES – Dome glazing available in clear, opal or tint with only the highest quality acrylics used.
